Refit - the final push

Dwayne from Mears attended our TBRA meeting on the 25th of September. We were informed that there are 18 properties waiting to be finished. Those residents who attended the meeting expressed some dissatisfaction with certain issues. Leaks, green dividers, downpipes, boiler problems and general clear up of the site were mentioned. Regarding issues with the guttering, Mears are waiting for the architects to come out, inspect and offer a solution. Residents should let April know about specific issues so things can be rectified before sign off. Why not attend the next TBRA meeting on Thursday October 30th and have your say?

Our Community Fridge & Cafe - donate and keep it running!

At Tinkers Bridge we collect our food donations from various sources. We receive a small amount from Food Connect but they can only give us what is available and it doesn't cover the quantities we need for the large amount of people that attend. It is hard work sourcing food donations. We have the cost of running a van

and also using our own vehicles to pick up produce. All deliveries are sorted to ensure that good edible food is available. We often repack items so more people can benefit. Yes we save food from going to landfill but we also focus on allowing people to feed their families healthy meals. There's Girl Pack for women so

they don't have to struggle and go without. But for us to be able to continue what we do, we need people to pay a mere **50p**.

Just 50p

We will have to close if people don't pay!

Did you know ... ?

Your 50p donation for our Community Fridge & Cafe helps fund these items and more:

- Fuel for vehicles
- Packaging
- Cleaning equipment
- Thermometers
- Stickers (for frozen goods)
- Printing
- Documentation
- Audits

SATURDAY 15 NOVEMBER, 7pm

53 seats are available - sold on a first come first serve basis and initially for Tinkers Bridge Residents ONLY

The new bench by the canal is getting plenty of use. It's a welcome spot for a social chat, for quiet reflection and/or for wonderful wildlife spotting. The bench was provided by our Councillor, April Rennie. It was made and installed by Men in Sheds.
